The perfect entry-level model

CREA-WHEEL 60 Basic – The cost-effective way to enter professional straightening.

Not every company needs a high-end straightening machine with the maximum range of features. In many cases, all that matters is **straightening flat steel quickly, precisely, and economically** – without hammers, without physical effort, and without unnecessary investment.

With the CREA-WHEEL 60 Basic, CREAMETAL AG offers an **affordable entry-level solution** for metal fabrication and locksmith workshops looking to **increase productivity** while improving the quality of their work. This compact straightening machine was specifically designed to meet the daily demands of workshops and manufacturing facilities and enables the efficient straightening of flat material as well as round and square steel without requiring any training.

Key Benefits at a Glance

- One single adjustment wheel
- Excellent price-performance ratio
- Increases productivity
- Easy to use
- Compact
- Robust
- Mobile
- Fast straightening
- Precise and quiet
- Clean
