

CREA NEWS

CREAMETAL AG NEWSLETTER / OCTOBER 2024

CREA-WHEEL now even more versatile. New for round bars, square bars and flat bars!

The CREA-WHEEL straightening machine is expanding its range of applications: In addition to flat material, round and square bars can now also be straightened precisely - quickly, efficiently and without additional equipment. Thanks to a new attachment, materials from 10 to 16 mm can be processed just as easily. The upgrade is easy to retrofit and increases the flexibility of your workshop without any additional effort. More efficiency with just one device!

Welcome to EuroBLECH 2024: Booth 14-K30

EuroBLECH in Hanover is the leading trade fair for the sheet metal working industry and offers a unique platform for innovative technologies and customized solutions. Together with CREAMETAL Innovative Werkzeuge GmbH, we will be present in **Hanover from October 22-25**, presenting the new CREA-WHEEL RRM as a trade fair highlight. The trade fair covers the entire technology chain of sheet metal processing and enables valuable knowledge transfer as well as the creation of global business contacts. **We still have a few free tickets left!**

Successful participation in Batimat 2024 - with customer feedback (on FR)

This year, CREAMETAL AG was represented at Batimat in Paris - the central meeting place for the construction industry. From **September 30 to October 3**, we were able to present our latest products especially for metal construction companies. We would like to thank everyone who visited us and are delighted with the positive feedback and interesting discussions. Batimat was a complete success for us and we are looking forward to future projects!

CUSTOMER FEEDBACK FROM THE BATIMAT IN PARIS

I would like to thank you very much for the trust you have placed in us and for working with us as partners. I wish you a successful fall and innovative ideas.
